

# Goal Planning Worksheet

Thank you for downloading this goal planning worksheet.

This worksheet can be used for a monthly, quarterly or half yearly review. It's a quick way to examine how far you have come and set measurable goals for the coming period.

Working through this worksheet should take you about 30 minutes to an hour if you have been setting goals previously.

If you're new to setting goals, it may take a bit longer.

Print it out and write in it. Keep your notes so you can refer back to them and track how you're doing.

Remember that what doesn't get measured doesn't count. You need to be able to measure how far you have come. Set goals that are Specific, Measurable, Achievable, Relevant and Time bound.

For example: I will sign on 3 new retainer clients per month for the next 6 months.

If you are far off from achieving a goal you have set, consider if you have set impossible goals. Your goals should also be within reach. Don't set impossible goals, it will only demoralise you if you don't meet them. But don't make your goals too easy either as that then has the effect of not helping you grow.

You can set goals for your business, your career, personal and family life.

Have fun with it.

**Plan Ahead:**

List 3-5 goals you would like to achieve in the next period. Too many goals will over stretch you and lead to burn out.

Tip: Identify measurable, achievable and relevant goals and set a time period for the next review.

Goal	How will you know you have achieved it?
